**MEMORANDUM FOR: Dr. Henry A. Kissinger**  
**Assistant to the President for**  
**National Security Affairs**

**SUBJECT : Presidential Travel**

1. I have taken some preliminary measures in anticipation of the need for intelligence support in the event of the Presidential trip to Communist China. I have particularly in mind, at this point, the requirements of the Secret Service for information needed to provide the best possible protection to the President. Within a few weeks, there will be available to the community a detailed large-scale map of the City of Peking.

2. I would appreciate any guidance you may be able to furnish me on the types of support we might be asked to provide and the ground rules under which we should operate in terms of releasing information to the Secret Service.
